Uniglide Trailer Coupling™

Suits all tow
tongues and
WDH heads.

A hitch for
every
application

Scan for video

2 tonne, 3.5 tonne, 4.5 tonne and 6 tonne couplings.
Adaptors for all other popular couplings available.

Featuring

- *Self aligning stainless steel tapered pin (patent pending) makes hitching up a breeze.
- *No wear on the pin because the point of attachment is separate to the point of movement
- *High Articulation, over 90 degrees on every axis!
- *Hi-tech roller bearings and precision polyurethane bushes, a true 21st century coupling.
- *Suits all trailer/vehicle combinations.
- *No rattles or hammer.
- *Easily mounted- bolt holes are the same as other hitches and in most cases, all you have to do is replace the greasy, outdated towball.
- *We can consult to your individual needs, simply give us a call or an email.
- *3.5 and 6 tonne models are supplied with a key lock hitchpin.
- *Simply the best on-road/off road coupling on the market.
