

MILENCO TOWING MIRRORS

Milenco has lead the market for towing mirrors since the 1990s. Their new range of towing mirrors feature improved fitting, greater security and grip, and are built to ensure they fit all new model cars.

FALCON MIRROR TWIN PACK 350-00402

The Falcon mirror is a superior quality, fully adjustable, lightweight and strap-free towing mirror.

It is super easy to attach to your existing mirror and features an aerodynamic head to limit vibration whilst towing.

GRAND FALCON CONVEX TOWING MIRROR 350-00403

Allowing maximum field of view with its larger head, and only using only a single thumb screw on each clamp for quick and easy fitting.

AERO 3 XXL WIDE CONVEX MIRROR 350-00405

Only available in convex, these mirrors have longer arms for wider caravans, RV's or travel trailers or when they have a narrow car, similar to original Aero Extra Wide Mirrors.

GRAND AERO 3 FLAT TOWING MIRROR 350-00406

Offers the maximum view possible while maintaining a high stability. The screws are high-grade stainless steel and turn in brass inserts to stop corrosion, and chrome safety glass for long life.

GRAND AERO 3 EXTRA WIDE CONVEX TOWING MIRROR 350-00407

These mirrors have longer arms, approximately 41cm long, rather than the standard 31cm. This enables you to have a better field of view, particularly when you have a narrower car.

MGI SAFETY TOWING MIRROR CONVEX SINGLES 350-00413

Ideal for those who tow occasionally. Simple to fit and meet all the latest Safety Regulations for Towing Mirrors, with tensioning straps and handles to allow adjustment for most traditional car mirrors.
